Linda M. Walsh
Transportation Planner
Community Compliance Section
Department of Transportation, Highway Division
Right of Way Bureau
1000 County Road
Taunton, MA 02780

Dear Ms. Walsh,

Please note that Clock Tower Place remains enthusiastic and supportive of the Assabet River Rail Trail. We are aware that this project will require an easement, within our property, along our Main Street frontage from our most westerly boundary to approximately our first driveway/entrance proceeding easterly along Main Street.

The importance of this project to the Maynard community has driven our support as we pride ourselves in being a good corporate citizen. The sacrifice and replacement of parking spaces is challenging, but we are willing to work with the Town of Maynard, the Massachusetts Department of Transportation and all the partners in this exciting endeavor.

We at Clock Tower Place are interested in any transit oriented programs which may help us understand how we can make this bike/pedestrian trail become a vital asset for growth in this wonderful town. Please feel free to contact me at 978-823-8200, extension 883.

Cooperatively yours,

Joseph W. Mullin
Public Affairs Director
